

fire_scape

Public Art commission consisting of four panels with landscape images modelled with a landscape modelling software. Commissioned by Edmonton Arts Council, Edmonton, Canada, for the newly built Firestation No.5. Completed 2010

The top view images depict a landscape with fire; images merge an impression of reality, computer imagery (as for the games industry) and a painterly feel. Panels are staggered at 5cm distances; digital print on Vinyl mounted onto 4mm aluminium.
